

Plastic base to increase feed consumption, by raising the baby chick feeders: TURBOGROW®, TURBOGROW-SHALLOW®, TURBOGROW 3® and TURBOGROW 3 PLUS®.

Features

- Made with 100% high-density virgin plastic and additives that provides a high resistance and durability.
- Increases chick feeder height 5 cm from the level of the floor.
- Base with drilled cone in the center at the top and in the bottom five strong and reinforced legs.
- The stowed is quick and easy, occupying a minimum amount of space.

Benefits

- Offers greater comfort to the chicks while feeding.
- Increases the number of chicks feeding around the feeder.
- Increase 4% feed consumption.
- Increases the residence time of the chick feeders in the poultry house.
- Standing chickens eat more than chickens sitting.
- Easy to wash and disinfect.
