

MAXIFLOW 3000®

Ergonomic plastic drinker or to supply milk replacers for piglets from the first day of life until weaning with deposit bottles of 1 gallon or ½ gallon.

Features

- Made with 100% high-density virgin plastic and additives that provides a high resistance and durability.
- With two drink areas design for the consumption of any type of liquids (Example: Milk replacers).
- Designed to be placed on the corner of the farrowing crate, occupying a minimum amount of space.
- Bi-directional rotary system -170° and $+170^{\circ}$, that allows to activate or suspend its use in a single movement: 0° = "ON" Activated and $\pm 170^{\circ}$ = "OFF" Not Activated.

Benefits

- Greater live weight from the first week to the end of the flock.
- Reduce mortality and cross infections.
- Improve Feed Conversion.
- Promotes intestinal integrity avoiding litter intake.
- Easy to wash and disinfect.
- Ideal for milk replacers or other type of liquids.
- Less number of slow developed piglets.
