

# TURBOGROW 2 S<sup>®</sup>

Sepgnos is the creator and holder of the patent of this his first-elongated baby chick feeder for the feeding of chicks, pullets and breeders during their first 14 days of age.

## Features

- Made with 100% high-density virgin plastic and additives that provides a high resistance and durability.
- Conical-cylindrical hopper and a "W" shaped pan with a large inner lip to avoid feed waste and it prevents the baby chicks from entering the feed area.
- Super reinforced assembly system so that hopper and pan are not separated.
- Recommended density: 1 TURBOGROW 2S<sup>®</sup> for every 75 to 100 chicks.
- Capacity: 11 lb.

## Benefits

- 10% more peripheral area to eat than round feeders.
- Greater live weight during the first week and at the end of the flock.
- Improve Feed Conversion.
- Promotes intestinal integrity avoiding litter intake.
- Easy to wash and disinfect.
