

# TURBOMATE 2®

**Automatic bi-directional feeder for baby chicks for 14 days of age. Consists in a Hopper with open windows above and fins down, Pan with double cone, long rotating hanger and Clamp with a closing pin and a “T” Dispenser.**

## Features

- Made with 100% high-density virgin plastic and additives that provides a high resistance and durability.
- Bi-directional rotary system  $-170^{\circ}$  and  $+170^{\circ}$ , that allows to activate or suspend its use in a single movement:  $0^{\circ}$  = “ON” Activated and  $\pm 170^{\circ}$  = “OFF” Not Activated.
- The clamp is easy to install around the metal feeder tube (smooth or ripe) and remains permanently fixed.
- Recommended density: 1 TURBOMATE 2® for every 75 to 100 chicks.
- To be installed with or without automatic feeders that have high height, considering the distance of the floor to the lower level of the tube from 23 cm to 26 cm.
- Capacity: 2.64 lb.

## Benefits

- Greater live weight from the first week to the end of the flock.
- Reduce mortality and cross infections.
- Improve Feed Conversion.
- Promotes intestinal integrity avoiding litter intake.
- Easy to wash and disinfect.
