

Automatic bi-directional rotary OPEN feeder for baby chicks during the first 14 days of age. Consists in a long-rounded Hopper with windows below, Pan with an undulatory inner lip, rotating Long Hanger and Clamp with a closing pin and “T” Dispenser and a coupling base.

Features

- Made with 100% high-density virgin plastic and additives that provides a high resistance and durability.
- Optimization of space between Automatic Feeders thanks to its rounded rectangular shape and a width of 18cm.
- Bi-directional rotary system -170° and $+170^{\circ}$, that allows to activate or suspend its use in a single movement: 0° = “ON” Activated and $\pm 170^{\circ}$ = “OFF” Not Activated.
- Recommended density: 1 TURBOMIX® for every 50 to 100 chicks.
- Capacity: 6.6 lb.

Benefits

- Greater live weight from the first week to the end of the flock.
- Reduce mortality and cross infections.
- Improve Feed Conversion.
- Promotes intestinal integrity avoiding litter intake.
- Easy to wash and disinfect.
